NEW Series 60 In-Line Mounted Centrifugal Pump

Description

A maintenance-free, in-line, cast iron centrifugal pump for HVAC systems.

Internal Self-flushing Seals

Provide superior flow circulation around the seal faces, reduce heat buildup, provide increased particle removal and superior seal-face flushing.

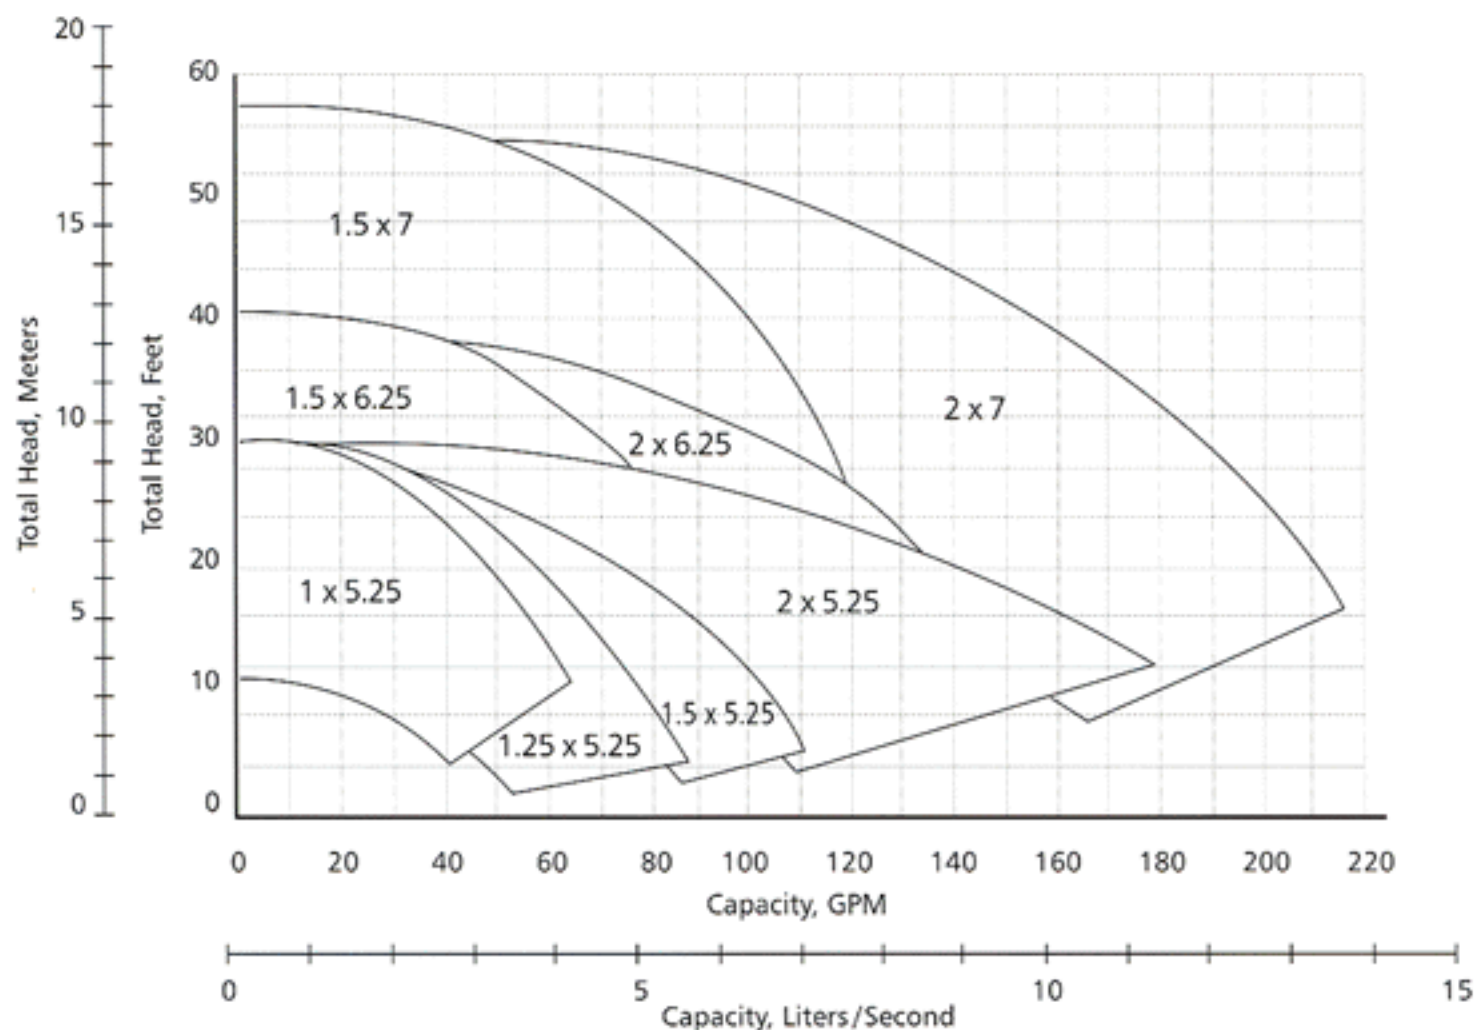

Maintenance-free Bearing

XL-11® Precision-Crafted Bearing System is permanently lubricated for maintenance-free operation and long life.

Impeller

State-of-the-art hydraulically balanced impellers and resilient-mounted motors provide smooth, quiet operation.

- Features a maintenance-free motor and pump assembly.
- Expanded hydraulic coverage and higher operating efficiencies.
- Delivers quiet, smooth, consistent performance.
- Backed with a three (3) year warranty from the industry leader.*

Materials of Construction

Pump Body.....	Cast Iron
Impeller.....	Cast Bronze
Shaft.....	Alloy Steel
Shaft Sleeve.....	Copper Alloy 110
Bracket.....	Cast Iron
Seal.....	Buna/Carbon-Ceramic

Operating Data

Maximum working pressure	175 psi
Operating temperature..	225°F
With optional seal	250°F
